```
C:\Archivos de programa\mongodb\Server\5.0\bin>mongo.exe
C. NATCHIVOS de programa mongououserveris. 8 (BIDIDIMONGO. exe
MongoDB shell version v5.0.15
connecting to: mongodb://127.0.0.1:27017/?compressors=disabled&gssapiServiceName=mongodb
Implicit session: session { "id" : UUID("14334f70-b8f4-4f5f-b58e-d76dcc81e255") }
MongoDB server version: 5.0.15
Warning: the "mongo" shell has been superseded by "mongosh",
which delivers improved usability and compatibility.The "mongo" shell has been deprecated and will be removed in
an upcoming release.
For installation instructions, see
https://docs.mongodb.com/mongodb-shell/install/
The server generated these startup warnings when booting:
2023-03-03T09:24:59.140-05:00: Access control is not enabled for the database. Read and write access to data and
 configuration is unrestricted
              Enable MongoDB's free cloud-based monitoring service, which will then receive and display metrics about your deployment (disk utilization, CPU, operation statistics, etc).
                               Enable MongoDB's free cloud-based monitoring service, which will then receive and display metrics about your deployment (disk utilization, CPU, operation statistics, etc).
                               The monitoring data will be available on a MongoDB website with a unique URL accessible to you and anyone you share the URL with. MongoDB may use this information to make product improvements and to suggest MongoDB products and deployment options to you.
                                To enable free monitoring, run the following command: db.enableFreeMonitoring()
To permanently disable this reminder, run the following command: db.disableFreeMonitoring()
                    show dbs
